RECOMMENDED SPEEDS

Mild Steel	140
Cast Iron	95
Tool Steel Stainless	70
Brass	190
Aluminium	220
Wood	2000

Alpha PROEDGE Bi-Metal holesaws are fast and clean cutting multi-use holesaws. They are suitable for drilling wood, nail embedded wood, plastic, stainless steel alloys and mild steel.

- Variable pitch teeth reduces friction and heat
- Premium M3 Bi-Metal Cobalt cutting edge
- Expanded gullets allow faster cutting and increase saw life
- Reinforced tooth flank for stronger teeth, longer life and resistance to tooth stripping
